Get it All Done In Less Time

Mega capacity (5.2 cu.ft.) means you have the room to do more laundry in fewer loads.

Fast Forward Your Wash

Give big loads the same great clean while cutting your wash time by up to 30 minutes* with LG's enhanced TurboWash® technology.

Save up to
30 min

*1. Compared to an LG front load washer without TurboWash®. Based on AHAM-HLW-1-2010 test protocol. Cotton / Normal or comparable cycle at default settings, 8 lb. loads. Excludes quick wash or comparable cycles intended for small, lightly soiled loads only.

Deep Clean With Steam

Our steam technology gently but powerfully penetrates fabrics to virtually eliminate dirt, odors and wrinkles.

A Smarter Way to Wash

6Motion™ Technology uses up to 6 different wash motions to provide a smart cleaning experience that is gentle on clothes and maximizes washing performance.

FINALLY A MACHINE THAT REALLY WORKS

SWEEPSTAKES ENTRY RECEIVED

After returning another 2018 model from SQ, I was really hesitant in buying another washing machine. However, this machine is awesome. Fills up with water (yeah), agitates like a

Quality

whirlpool, spins like a cyclone. Clothes are clean, bright, stain free, smell fresh and almost dry at the end of the cycle. Less drying time is the outcome. I actually look forward to doing my laundry... really. Thank you LG for putting so much into this machine.

⊕ **Pros:** Performance

☑ **Yes,** I recommend this product.

GREAT WASHER

I've read that front loaders clean better than top loaders. That's not true of the LG turbo wash system. My clothes are just as clean if not more so. The washer is also ultra quiet.

⊕ **Pros:** Performance

☑ **Yes,** I recommend this product.

LOVE THIS WASHER

I could just go on and on about how I love my new LG washer. It's quiet and easy to use but the best thing I like is that my clothes come out looking great. I am so happy I decided to go with LG.

⊕ **Pros:** Style/Design, ease of use, Features/Settings, Performance, Quality

☑ **Yes,** I recommend this product.

GOOD WASHER

SWEEPSTAKES ENTRY RECEIVED

It is a good washer. My only complaint is that we purchased this washer for the ability to download cycles and unfortunately, there is no iOS support for using that functionality. You can only use an Android phone (not a tablet)...

+ **Pros:** Performance

⊗ No, I do not recommend this product.

EASE OF USE

We bought this washer based on the recommendation of the saleswoman who mentioned the steam feature. We are very pleased with the ease of use, the cycle finish alarms and the low noise level of operation. It is great to be able to look through the glass top and see the washer in action.

+ **Pros:** Style/Design, ease of use, Features/Settings, Performance, Quality

✔ Yes, I recommend this product.

NEW WASHER

So far, so good! I like the washer as I can easily wash my bedding. The tub is quite roomy. The machine runs very quietly. The reason I gave 4 stars not 5, is it is so advanced, it is difficult to just install and start using. I actually had to look at the instructions. No problem for young people, might be a little frustrating for the older generation.

+ **Pros:** Style/Design, Performance, Quality

✔ Yes, I recommend this product.

HOW MANY GALLONS OF WATER DOES IT USE IN A NORMAL CYCLE?

2
answers

Answer this Question

Amber C · 3 months ago

Water consumption varies based on the load sensor, cycle selected and addition option available. It also varies based on the soil level and type of clothing placed in the unit, therefore there is no set amount of water per cycle. ^AC

WHAT IS THE TEMPERATURE OF THE SANITARY AND ALLERGEN CYCLES? DOES IT HAVE NSF CERTIFICATE FOR SANITIZATION/ALLERGIES?

1
answer

Originally posted on WT7600HKA

Answer this Question

LGJoel · 4 months ago

Both the Sanitary, and Allergiene™ cycles in the ENERGY STAR® Qualified LG 5.2 cu. ft. Mega Capacity Top Load Washer with TurboWash® Technology, Model # WT7600HKA have been tested and certified under NSF Protocol P172 - Sanitization Performance of Residential and Commercial, Family Sized Clothes Washers, and the washer bears the NSF certification mark. The Sanitary cycle reduces 99% bacteria on laundry through high temperature and the Allergiene™ cycle is a powerful, high temperature cycle designed specifically to reduce certain allergens. Selecting the Allergiene™ cycle automatically incorporates steam into the wash cycle. The wash water must reach 55° C (131° F, the temperature required to kill dust mites) for at least three minutes and the washer must be easily cleanable, corrosion resistant and designed to avoid accumulation of dirt and debris...^IFV

I DONT SEE THE STEAM COMING OUT WHEN IVE SELECTED THAT OPTION, DURING WHICH CYCLES DOES IT RELEASE?

1
answer

Answer this Question

Amber C · 4 months ago

Hello, as stated in the manual, the steam may not be clearly visibly during the Steam Cycle and this is normal. Too much steam can damage clothing. ^AC

CAN YOU USE HE POD STYLE DETERGENT? IF SO, DO YOU ADD IT WITH THE CLOTHES OR IN THE DETERGENT TRAY?

1
answer

Originally posted on WT7600HKA

Answer this Question

LGJoel · 5 months ago

The ENERGY STAR® Qualified LG 5.2 cu. ft. Mega Capacity Top Load Washer with TurboWash® Technology, Model # WT7600HKA is designed to use only High-Efficiency (HE) detergent. If you are using HE Detergent Pods, you will need to follow the instructions for their use that are printed on the packaging, but in most instances, the HE Detergent Pods have to be placed in the tub before loading your clothes. Never place them in the detergent dispenser tray! ...^IFV

WHY CAN'T YOU SELECT FABRIC SOFTENER AND TURBO WASH TOGETHER?

1 answer

Answer this Question

amber · 5 months ago

Adding fabric softener to a wash cycle increases the rinse time and the Turbo wash cycle is made to reduce the wash time. ^AC

LG's streamlined designed washing machines come in various colors with user-friendly control panels, as well as the options and performance you need. LG's line of washing machines offer innovative features including:

Front-load vs. top-load: Depending on your preference, both LG washing machine models are designed to be energy and water efficient, while the top loading model might appeal to those looking for a more traditional design.

Varied capacities: Whatever size you are looking for, LG has the washing machine to fit your lifestyle and laundry loads.

6Motion technology: Combines up to six different wash motions for the ultimate cleaning technology.

TubFresh technology: Help maintain your washer's freshness by cleaning the wash tub and spinning it dry with LG's TubFresh technology.

Direct Drive motors: LG washing machines feature fewer moving parts creating a longer-lasting product. The direct drive motor is coupled with a 10-year warranty for ultimate purchasing peace of mind.

TurboWash technology: LG's revolutionary TurboWash technology offers the industry's fastest cycle times by saving you 20 minutes on each cycle.

TrueBalance: Reduces noise and vibration for a quiet yet powerful performance.

For enhanced cleaning and superior performance, browse LG's selection of innovative washing machines designed with you in mind. LG washing machines offer innovative features like TurboWash and 6Motion technology—providing the latest in cutting-edge technology and innovation with the dependability you have to come to expect.
